25X1A 4. (Confidential - JGO) Talked to Dr. John Brady, House Foreign Affairs Committee staff, who told me that he met yesterday afternoon with Chairman Lester Wolff (D., N.Y.), Special Narcotics Subcommittee, and told him that the information he had received concerning CIA

25X1A [REDACTED] was completely without foundation. Dr. Brady indicated that he does not believe that any further attempt by Agency representatives at this time to discuss the matter with Chairman Wolff would be productive. A meeting was scheduled for Friday morning, 11:00, here at Headquarters for [REDACTED] 25X1A [REDACTED] EA Division. [REDACTED] have been 25X1A advised.

5. (Confidential - JGO) In Frank Slatinshek's, Chief Counsel, House Armed Services Committee, absence, I returned to Bernice Kalinowski, his personal secretary, correspondence from Representative George E. Brown, Jr. (D., Calif.) concerning a 13 July 1973 article in "The Militant," Los Angeles, California, together with a short blind memo indicating that we were unable to substantiate any of the allegations made in the subject article. It was suggested that any further checks be made directly with the FBI. Miss Kalinowski will call me if Slatinshek has any questions.

6. (Secret - JGO) Met with Bill Ashworth, Arms Control, International Law and Organization Subcommittee staff, Senate Foreign Relations Committee, and briefed him in general terms on current Soviet missile testing. Ashworth noted that Chairman Muskie has made no mention of the briefing last week by Ambassador at Large U. Alexis Johnson. He will check with Chairman Muskie at an appropriate time to ascertain whether any further briefings are desired for the Subcommittee on the Soviet strategic weapons picture. Carl Duckett, DDS&T, has been advised.

7. (Internal Use Only - JGO) Received a call from Mike Finley, Inter-American Affairs Subcommittee staff, House Foreign Affairs Committee, concerning the charges relating to a Senate hearing this week about a "contract" on the life of Prime Minister Pindling of the Bahamas. After checking with [REDACTED] I told Finley this was purely a Bureau matter.
